**100%
PURE
APPLE**

FEATURES

ROBOTIC APPLE JUICER

Storage of Apples

Full load of about
270pcs apples

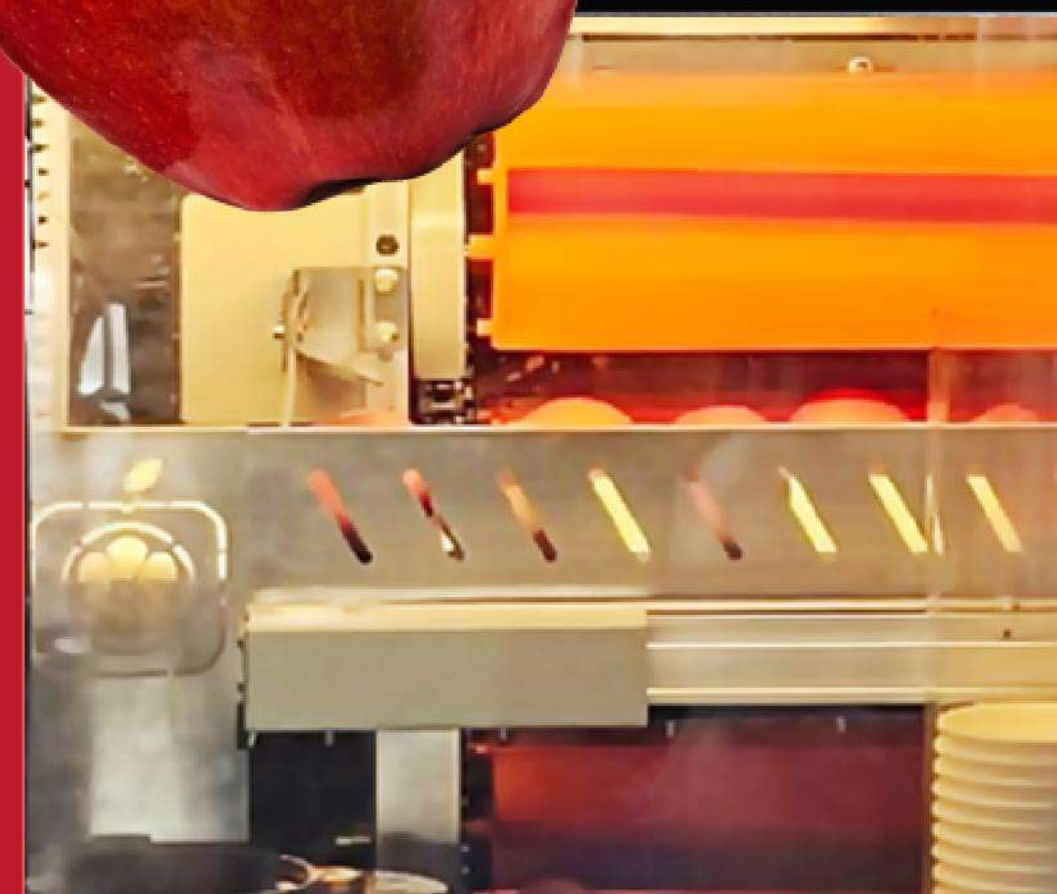

Ideal Temperature

A minimum temperature of 4°C
is ideal for maintaining the
freshness of apples and
producing chilled, refreshing
apple juice.

**YOUR DAILY
FRESH BOOSTER**

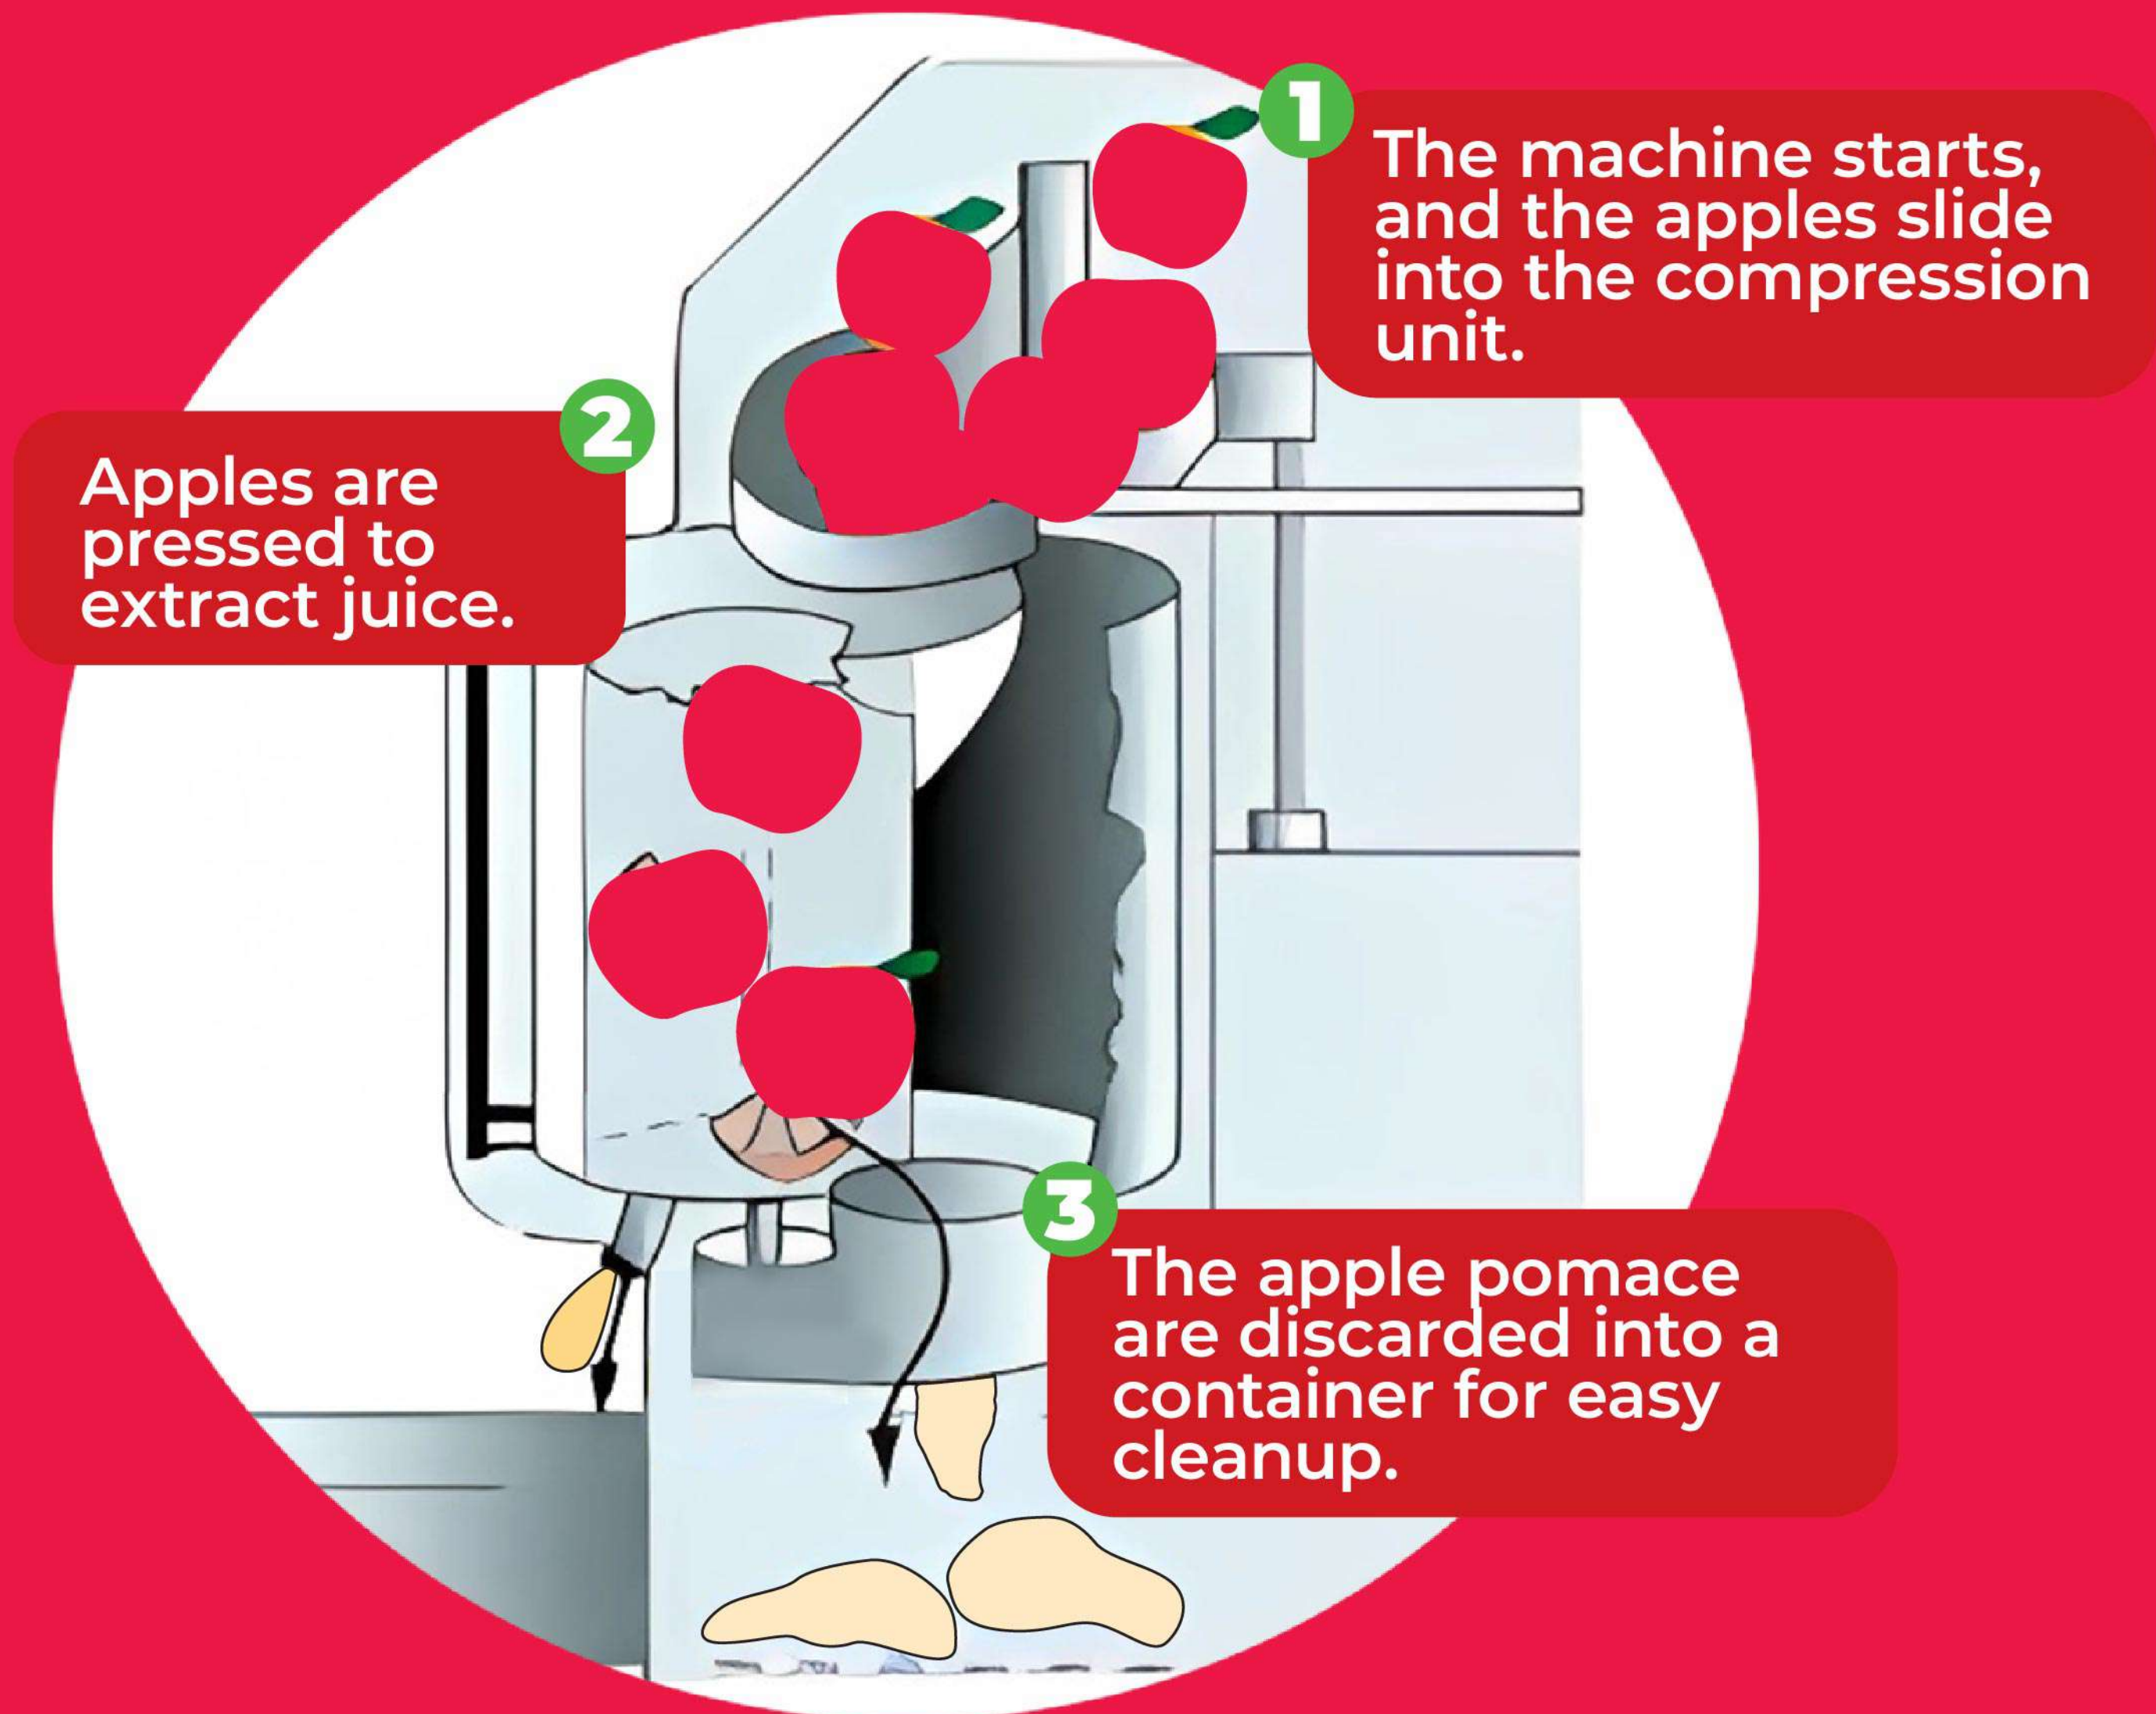

FEATURES

ROBOTIC APPLE JUICER

The unique patented extrusion system delivers pure, high-quality juice.

- Unique technology to separate the pulp and bitter oils.
- Maximize the juice yield of apples
- Easy management and time saving
- Hygienic and easy to clean

ADVANTAGES

HEALTH ASSURANCE TECHNOLOGY

- Intelligent cleaning system: It has its own intelligent cleaning system with three modes: timing, fixed point and fixed cup;
- Ozone disinfection system: It has its own ozone generator and can be disinfected at any time;
- Replaceable juicing unit: easy to replace, centralized cleaning and disinfection;
- Keep the food fresh at a constant temperature of 4°C: The low temperature locks in freshness, prevents the loss of nutrients, and prevents the growth of bacteria.

“

100% Pure Orange Juice

A fresh orange vending machine that squeezes real oranges on demand, offering 100% pure juice with no added water, sugar, or preservatives. Enjoy a natural, refreshing drink at the push of a button!

WHAT IS REQUIRED

- Public access area with high traffic flow indoor
- Sheltered semi-indoor areas
- Location with strong security measures
- Good mobile signal coverage
- Achieve min of 20 cups per day average

Payment System	Digital Payment
Networking Mode	4G / wired broadband
Maximum Power	800W
Rated Power	300W
Power Consumption	3-7kwh/day
Power Supply	100-240V, 50/60Hz

INSTALLATION TIMELINE

STEP 1

Deposit

Place deposit to secure the deal

STEP 2

Site Recce Checklist

Begin with a site survey to determine the suitable locations

STEP 3

Letter of Offer

Signing letter of offer

STEP 4

Full Payment and Signing of Agreement

Full payment, followed by signing of agreements and securing a location

STEP 5

Deployment

Actual installation and setup of the machines on-site by our team (technicians, routeman, driver)

STEP 6

Training

On-site training
